

Bright Futures

Graduate schools across the country actively seek out Concordia chemistry graduates. In recent years, Concordia chemistry students have also achieved a 90 percent acceptance rate into medical schools and a 100 percent acceptance rate into pharmacy schools.

Concordia chemistry graduates pursue advanced degrees at top universities such as Cornell, MIT, Creighton, the University of Southern California, the University of Illinois, the University of Minnesota, Iowa State, the University of North Dakota and other top universities. They're studying chemistry, dentistry, pharmacy, medicine, and physical and analytical chemistry. Recent grads are working as a forensic scientist at a Drug Enforcement Administration crime lab in Chicago, a nanotechnology researcher at the National Institute of Standards and Technology in Boulder, Colo., and an AIDS pharmacist at the Hennepin County Medical Center in Minneapolis.
