SUBJECT: Extended Pharmacies (90-Day Prescription Supplies)

Helpful tips when selecting/going to a pharmacy.

✓ **Prescription Drug Benefits at the Pharmacy (retail):**

- \$10 co-pay generic
- \$25 co-pay formulary brand
- \$40 co-pay non-formulary brand

Prescription drugs and diabetic supplies are covered in a “**31-day**” supply (along with 3-cycle supply of oral contraceptives) from a retail pharmacy. Some medications may be subject to a quantity limitation per day supply or to a maximum dosage per day.

✓ **Prescription Drug Benefits when you use PrimeMail Pharmacy(mail order)**

- \$20 co-pay generic
- \$50 co-pay formulary brand
- \$80 co-pay non-formulary brand

These co-pays apply to a “**90-day**” supply of mail order medication. Some medications may be subject to a quantity limitation per day supply or to a maximum dosage per day.

Mail order offers you the convenience of home deliver with the same high quality, safety and service for your prescription needs:

- **Convenience** – Medications are delivered to your home or work with refill amounts and dates noted on the prescription label.
- **Quality** – Each prescription is verified for accuracy and dispensed by a pharmacist who oversees every aspect of the process.
- **Privacy**- Orders are handled discreetly and delivered in plain-labeled packaging with no indication of the contents.
- **Safety** – A tamper-evident closure and secure packaging protect your order from breakage.
