Center for Ethical Leadership

The purpose of the Center for Ethical Leadership is to develop and enhance ethics-centered and values-based leadership for individuals and organizations through information programs and consultation.

Quality of leadership is a primary factor in the success or failure of any enterprise. Those in positions of leadership have a direct and commanding influence on the level of commitment, motivation and performance of their organization. They are continually in situations where their judgements and decisions impact others, whether for good or bad, success or failure. Whatever their skill level, those in positions of leadership can enhance the effectiveness of their organization through deliberate efforts to improve their leadership abilities.
