

Assignment 08 – Developing an Excel Application
Due: Wednesday, Nov 12th.

Read Excel Tutorial 8.

Work through the tutorial for chapter 8 starting on page 393. Note: this is the same tutorial material we worked on in class.

Before submitting your document, make the following changes:

1. Apply worksheet protection to the documentation sheet
2. Do **not** use a password when applying the protection.

Save your document using the filename given in the tutorial.

Modify the file name such that it is in the following format:
CS104-A08-**YOURNAME-FILENAME**

YOURNAME should be your name & **FILENAME** should be the original name indicated in the assignment. For instance, if the text said to save the file as **Perfect Spreadsheet.xlsx** my final filename would be:

CS104-A08-Jonathan Pikalek-Perfect Spreadsheet.xlsx

Upload the file to Moodle.

The case problem will be graded using the following rubric:

Description	Pts
Filename is correct	1
Cells & ranges indicated in tutorial use defined names	3
Invoice worksheet uses data validation as indicated	3
Comment box has been added	2
PrintPreviewEntireSheet macro added	1
TransferData macro added	1
Macro buttons have been added	2
Documentation sheet is protected without password	2
TOTAL POSSIBLE POINTS:	15
