

CS 125 – Introduction to Computer Science
Fall 2008

Practice 06a – Java Concepts, Chapter 06: Iteration
Due: Wed, Oct 29th.

Exercise P6.8 pg 243 - RootApproximator

Read the exercise. Produce a flow chart for your program. Implement the class as described in the exercise. Be sure to include documentation commenting. Review section 4.7 for information on how to get user input.

This is a practice exercise, it is not required, but is strongly encouraged. A possible solution will be released on the due date.

Practice 06b – Java Concepts, Chapter 06: Iteration
Due: Fri, Oct 31th.

Exercise P6.11 pg 244 - RandomDataAnalyzer

Read the exercise. Produce a flow chart for your program. Implement the class as described in the exercise. Be sure to include documentation commenting. Review section 4.7 for information on how to get user input.

This is a practice exercise, it is not required, but is strongly encouraged. A possible solution will be released on the due date.
